Sigmund Freud  
University  
Paris

## THE IMMERSION PROGRAM

This program is an initiative aiming to promote the international character of Sigmund Freud University by offering to the students the possibility to carry out a year of their studies (in English) in the French capital.

After a year of French immersion and with a 60 ECTS credits certification, students will have the possibility to enroll in our regular programs - BSc and MSc in Psychology - in Paris (in French) or in our headquarters, SFU Vienna (in English).

As in our traditional program, the immersion curriculum incorporates theoretical classes (held three times a week for the first level and twice a week for the second level) as well as field visits and French courses in order to improve the student's experience.

The faculty is composed by renowned professors, lecturers and researchers (from both SFU Vienna and SFU Paris) with the most varied backgrounds who are eager to share their knowledge and research.

We hope to see you soon!

**SFU Vienna and SFU Paris**

14 rue Alfred Roll, 75017 Paris

## THE FACULTY

The faculty is composed by a combination of professors, lecturers and researchers (from both SFU Vienna and SFU Paris) in addition to external experts with renowned performance in psychology, psychotherapy and psychoanalysis.

## FIELD EXPERIENCES

Throughout the entire program the students will be invited to engage in field visits led by faculty members in order to enrich their experience with the French culture.

- Pitié Salpêtrière Hospital

Teaching hospital, part of the Assistance Publique – Hôpitaux de Paris

- Le Silence des Justes

Association for Autistic Community and related disorders

- Hôtel-Dieu Hospital

Teaching hospital, part of the Assistance Publique – Hôpitaux de Paris. Hospital. The oldest hospital in the city of Paris and the oldest worldwide still operating. The Hôtel-Dieu has one of the largest European research centers in public health, epidemiology and biostatistics, supplemented by a unit specializing in health economics and the philosophy of care.
